SEBASTIAN ALONSO BONILLA DE LA CRUZ

SENIOR DATA ENGINEER | SNOWFLAKE, DBT & PYSPARK

Lima, Peru | +51 992 625 400 | sebastian.bonillad@gmail.com | linkedin.com/in/sebastianbonilladelacruz

PROFESSIONAL SUMMARY

Senior Data Engineer with 5+ years of hands-on experience designing and operating scalable data pipelines and analytical platforms. Strong expertise in **Python, PySpark, SQL, Snowflake, dbt, and Apache Airflow**, with proven delivery of high-volume ETL/ELT, dimensional models, automated data quality controls, monitoring, and cloud infrastructure practices. Experienced with AWS data services, Terraform, CI/CD, and translating business requirements into reliable production data solutions.

TECHNICAL SKILLS

Core Data Engineering: Python, PySpark (Apache Spark), SQL, dbt, ETL/ELT, Data Cleaning, Dimensional Modeling, Data Marts

Warehouses & Platforms: Snowflake, Azure Databricks, Azure Synapse Analytics, Delta Lake, Microsoft Fabric

AWS & Cloud: AWS S3, AWS Glue, AWS Lambda; Azure Data Factory, ADLS Gen2, Unity Catalog

Orchestration & DevOps: Apache Airflow, Terraform (IaC), Docker, Azure DevOps, Git, CI/CD Pipelines

Reliability & Governance: Automated Data Quality Checks, Testing, Monitoring & Alerting, CDC, SCD Type 2, Governance & Lineage

PROFESSIONAL EXPERIENCE

Senior Data Engineer | Cheers Health | Jul 2025 - May 2026 | Texas, USA (Remote)

- Architected scalable ELT/ETL pipelines using **Python, PySpark, and Delta Lake**, standardizing multi-source API streams and ingesting **4M+ daily records** with automated data quality checks.
- Optimized complex analytical SQL and storage layouts, reducing execution latency by **42%** while implementing CDC and SCD Type 2 for high-volume dimensions.
- Engineered LLM-powered extraction and automated classification workflows in Python, reducing end-to-end processing from **~8 hours to under 45 minutes daily**.
- Standardized **CI/CD**, schema evolution policies, lineage governance, and reliability controls for production stakeholder reporting assets.

Senior Data Engineer / Implementation Consultant | The Hawkers Club | Jan 2024 - May 2025 | Denver, USA (Remote)

- Engineered optimized dimensional models, data marts, and **dbt/SQL transformation workflows in Snowflake** and Azure Synapse, consolidating CRM, subscription, and commercial feeds for **800K+ daily transactions**.
- Developed and scheduled **100+ Apache Airflow DAGs** with anomaly detection and automated alerting, reducing pipeline failures to near zero while maintaining strict reporting SLAs.
- Partnered with analytics and growth stakeholders to translate business logic into reliable, performance-tuned production data models.

Senior Data Engineer / Implementation Consultant | DigitalCALA / Telcel | Apr 2021 - Jan 2024 | Florida, USA (Remote)

- Designed and deployed an end-to-end Bronze/Silver/Gold architecture on Azure Databricks and ADLS Gen2 processing **10M+ telecom records**, with governance, access controls, and schema validation.
- Developed distributed **PySpark** workloads, reducing analytical processing latency from **24 hours to under 2 hours**.
- Implemented idempotent pipelines, SCD2 logic, rigorous data testing, and Azure DevOps CI/CD; mentored junior engineers on PySpark optimization and Git-based delivery.

Data Engineer / Analyst | Pallon | Oct 2020 - Apr 2021 | Zurich, Switzerland (Remote)

- Built high-performance **Python ETL** pipelines for spatial joins and distributed aggregations over **50K+ infrastructure inspection datasets**, reducing preprocessing runtime from **6+ hours to under 1 hour**.

EDUCATION & CERTIFICATIONS

Certifications

Fabric Data Engineer Associate (DP-700) - Microsoft (2025)
Azure Data Fundamentals (DP-900) - Microsoft (2025)
AWS Certified Data Engineer - Associate - AWS (2026)

Education

B.Sc. in Bioengineering - UTEC, Lima, Peru (2018 - 2023)
Full Stack Software Development - 4Geeks Academy (2023)

LANGUAGES

Spanish: Native | **English:** C1 - Advanced Professional
